Team-managed

Set up and maintained by your team.

For teams who want to control their own working processes and practices in a self-contained space. Mix and match agile features to support your team as you grow in size and complexity.

Simplified configuration

Get up and running quickly, with simplified configuration.

Anyone on your team can set up and maintain

Settings do not impact other projects

Easy setup for issue types and custom fields

Simple configuration for multiple workflows

Access level permissions

Company-managed

Set up and maintained by your Jira admins.

For teams who want to work with other teams across many projects in a standard way. Encourage and promote organizational best practices and processes through shared configuration.

Expert configuration

Benefit from complete control with expert configuration, customization and flexibility

Set up and maintained by your Jira admins

Standardized configuration shared across projects

Complete control over issue types and custom fields

Customizable workflows, statuses and issue transitions

Detailed permission schemes

Essential features

A modern Jira experience for teams who don't need advanced features.

Only show your project's issues on your board

Advanced features

All the power and features that Jira Software is known for.

Pull in issues from other projects on your board

Select a team-managed project
